

A TRADITION OF SUPERIOR CARE IN
Memory Care

A Comforting, Sun-lit Environment

Our safe, secure, and home-like single floor “neighborhood” with 42 splendid sun-lit private rooms and baths showcases the changing of the seasons. Our residents walk down memory lane daily at Home of the Good Shepherd Memory Care Residence by enjoying the coffee shop, news stand, ice cream parlor, Post Office, beauty/barber shop and an old-fashioned penny candy store. It is a neighborhood everyone wants to be part of and fast friends are made.

Our inviting community encourages our residents to flourish to their potential through the various sensory modalities delighting residents throughout the building with the smell of freshly cut grass, the feeling of an antique telephone or the sound of crickets while rocking on our European inspired front porch area. In addition, our residents will also be able to enjoy a safe and inviting, beautifully manicured outdoor courtyard.

Giving to the Home of the Good Shepherd

As a designated 501 (c)(3) non-profit organization, we rely on the financial support of family, friends and community members to enhance the programs and services provided to our residents. Through our philanthropic arm, we are able to reinvest any financial donation back into our facilities and continue to offer the high-quality care, programs and services that our residents desire.

Gifts of cash and appreciated securities are kindly accepted and greatly appreciated. If you would like make a gift, you may mail your check to: Office of Development, 400 Church Street, Saratoga Springs, NY 12866 or you may make a gift via credit card by calling 518-450-7360. We can also accept credit card gifts online through our website, www.homeofthegoodshepherd.com.

We Emphasize the “Care” in Alzheimer’s and Memory Loss Care

Your loved one with memory impairment is often scared and confused. A genuine smile, a quick hug, or another act of special kindness can help reassure him or her and allow them to feel more connected.

At Home of the Good Shepherd Memory Care Residence, we offer a high staff-to-resident ratio. Our RN Care Manager and LPNs are available around the clock, along with resident aides who are trained in Alzheimer’s and dementia care. Our unique program emphasizes communication strategies that utilize the five senses to connect with our memory care residents. Our compassionate staff keep our residents safe and comforted by managing behavioral changes in a calm, tranquil environment.

An Emphasis on Active Involvement and Life Enrichment

We strive to create active involvement among our residents to help them stay mentally alert and slow the progression of memory loss. Pleasurable activities and memory enhancement programs include, but are not limited to: movement to music and sing-a-longs, ice cream socials, bingo and other active games, gardening, book club, coffee klatches, movies with popcorn, and theme oriented reminiscence group.

Other therapeutic modalities to stimulate the senses are offered including: art and music therapy, aroma therapy, horticulture therapy, chair yoga, and laughter. Your loved one’s well-being, sense of personal identity, and feelings of community are central to everything we do in our memory care community.

Support for the Family

We realize that each individual affected by Alzheimer’s disease has unique characteristics and challenges. Alzheimer’s affects the entire family, not just the individual. As a result, we hold family council and care plan meetings, to assist families with the many pragmatic and emotional issues that arise during a time of evolving change and transition. The care team will work together with you to provide a structured daily routine to enhance the quality of life of your beloved family member.

We encourage family to remain integrally involved in the lives of their loved ones, and work hand in hand with the Alzheimer’s Association to help families who may need some additional support.

What Can We Do to Help?

Choosing a memory loss facility is never easy. Along with it comes the realization that your loved one – your parent, spouse, sibling, or friend – can no longer safely and comfortably live at home.

At Home of the Good Shepherd Memory Care Residence, we do everything we can to provide understanding and support. We invite you to come tour our community and meet with us to answer your questions. We’re not only committed to serving those with memory loss, but also provide assistance to families with thorough information.

We Provide a Resident-Centered Approach that Celebrates the Life of Each of Our Residents

Many seniors forget a word or misplace their keys as they grow older, but Alzheimer’s is more than that. Alzheimer’s is a slow, gradual disease that actually destroys brain cells, leading to impaired memory, thinking, speech and behavior.

Although there is no clinically proven cure or method of treatment, you can ensure that your loved one receives ongoing care in a comfortable and compassionate environment that emphasizes positive life experiences.

Home of the Good Shepherd Memory Care Residence is designed for seniors with mild or more advanced Alzheimer’s or other memory disorders. Our goal is to help celebrate the unique life of each resident in innovative designed surroundings that are comforting, secure, and inviting...with no admission or application fees required.
