

Our New Home for Enhanced Assisted Living

The Home of the Good Shepherd, licensed by the NYS Department of Health, has served the Saratoga Springs community since 1870, earning a proud reputation for providing the highest level of skilled, attentive care.

In 2013, we opened our new facility in Moreau, where we continue to offer:

- Warm and inviting, modern private suites.
- Customized care plans for each resident.
- Personal care assistance; daily activities.
- Medication management and skilled nursing assessments.
- Meals, housekeeping and laundry services.
- A continuum of care which allows residents to “age in place.”
- An ideal location in Moreau.

We invite you to call or visit.

All the Comforts of Home

At the Home of the Good Shepherd we offer our residents superior quality, professional care in a warm and inviting assisted living environment. Our size allows us to provide each of our residents with individualized services to meet their specific needs while encouraging them to remain active and involved with their lives and in the Community. Our Enhanced care allows residents to “age in place” as we provide Skilled Nursing tasks and Nursing Assessments in our private home like environment.

Personal Care

We put the personal care and comfort of our residents above all else. This includes the assistance we give them with the tasks of their everyday lives, including ambulating, transferring, feeding, toileting needs, dressing, bathing, oral care, and general hygiene.

Upon admission, a personal care plan is developed for each resident and integrated within case management services. The personal care plan reflects an individual resident's needs and routines prior to admission, and is based on discussions with the resident, family members, physicians, and other healthcare providers involved in the wellbeing of the resident. The Care Plan is routinely updated based on nursing assessments done by onsite staff as the resident ages in place.

Dining

A variety of delicious meals are served three times a day in our dining room. Each resident has a choice of meal options. Morning, afternoon, and evening snacks are also offered. Our Meals are prepared to meet therapeutic diets as ordered by a physician. We also provide in room tray service to accommodate special circumstances when needed.

Activities

Our residents never run out of opportunities for enriching and energizing their lives. We offer a full calendar of social and recreational activities that keep residents challenged and active. Planned trips are scheduled to area shopping centers, restaurants, and cultural activities. Of course, residents may choose to pursue their own interests, such as reading or watching television.
